DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, 6-12, drawn to a diagnostic reagent and method for using the composition comprising one antigen of hepatitis C virus, classified in class 424, subclass 228.1.

If Group I, is elected, Applicants are requested to further select one of the sequence selected one of an antigen from (1). Core antigen of hepatitis C virus (HCV), (2). NS3 of HCV, (3). NS4 of HCV and (4) NH5 of HCV to be examined on the merits. This is not a species election because each amino acid sequence has different structures and functions, which possess different search and patentable weight.

- II. Claims 1, 5, and 6-12, drawn to a diagnostic reagent comprising more than one antigen of hepatitis C virus and a method for using the composition, classified in class 424, subclass 228.1 classified in class 424, subclass 192.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I - II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are directed to different compositions comprising different components, e.g. the composition of Group I comprises only one kind of antigen, whereas, the composition of group II comprising more than one antigens.

Because these inventions are distinct for the reasons given above, the restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1648

application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
